

ETL ON Hive :-

Hive/Impala performance Improvements
{ Compute Stats, Analyze Table } (Google stuff)

Apache Hive Essentials { Performance Consideration }

Apache Hive Cookbook { Join & Join Optimization }

Apache Hive Essentials { Extensibility Consideration }

Apache Hive Cookbook { Creating Custom UDF }

RDBMS projects folder :-

Spark Integration with RDBMS

CCPA folder { Sqoop via Spark }

Hadoop Updation :-

~~for~~ { Apache Hive Essentials { Transactions & locks }
~~limitations~~ { Apache Hive ~~Essentials~~ Cookbook { Enabling transactions in Hive }
~~from~~

Apache Hive Cookbook { Working with HBase }

CCPA folder { HBase on Hive (with HBase linking) }

Using insert CMD to Overwrite ~~from~~ Bookmark (CPA)
{ insert overwrite *** where col != val }

PI governance:

Apache Hive Essentials { Mask & Encryption }

CCPA folder { PI data governance }
(Cook Book stuff code)

Data Tagging { ~~CCPA folder~~ CCPA folder (Data Tagging)
Cloudera Navigator Youtube
Atlas, Ranger Youtube }

CCPA folder { HBase Data Cataloging }

HBase MetaData Management

Hive/Impala MetaData Management

Data
Inventory
Management

Google :-
Compute Stats - Impala } Git
Analyze Table - Hive

Apache Hive Cookbook

- Creating custom User Defined Functions (UDF)
- Enabling transactions in Hive
- Joins & Joins optimization
- Working with HBase

Apache Hive Essentials

- Performance Consideration
- Mask & Encryption
- Transactions & locks
- Extensibility Considerations

Spark: The Definitive Guide

SQL Databases

Hive on HBase
Integration

Hive on Kafka

Serverless

Disk Spaces
CD: Definitive Guide
Edge

Edge
Google

→ Transactional

→ HBase via Hive & Impala

→ POC

→ Limitations (from the website)

Hive/Impala

→ HBase via

POC HBase Data Loading

→ querying in Shell Script via Hive like

Export Hive AUX-DBs = ...

Hive - E heartwork site

→ Cloudera Navigator

Work PC &

Hive on HBase

Impala on Kudu
PetaLake

Data Masking (Squashedhash Algorithm, Lukn algorithm, Hive UDFs)

Data Redaction (Cloudera Manager)

Data Tagging (Navigator, Atlas, Ranger)

Updating & retrieval in Hive:-

Hive Transactional
Line
